The conditions below apply throughout this insurance. Failure to comply with them may be prejudicial to a claim:

5.2 Points to be noted: In case of Multi-Trip, the minimum age limit for the Insured Person is 91 days, and the maximum age limit for the Insured Person is no maximum entry age.

What are the specific circumstances under which the premium could be loaded or a discount provided could be withdrawn and the extent to which it will be done?

The rates are subject to change based on IRDAI's approval.

- The rates can be increased or decreased depending on extent of currency fluctuation. The current pricing is within the range of 81-90 (Rupee to Dollar value)

- For every 5% variation in this range at the end of every quarterly period to the base rate filed, the prices will be increased or decreased by 3%. If the fluctuation remains within this range i.e. Rs.81 – Rs.90 then, no change in premium pricing is proposed. If the threshold is breached on the higher or on the lower side by 5%, then the premium rates will be increased/decreased by 3%. In case of any rate correction with the above formulae, it will be published on our website.

- To give an example, if on 1.4.2023, if the USD to INR rate is Rs.81 and on 30.6.2023, the conversion rate goes up to Rs.94, which is a 4% increase from the Rs.90 higher range threshold, then there will be no increase in the rates. If on 30.9.23, if the rate goes up to Rs.96, then the increase is 7% which will call for a 3% increase in the rates w.e.f 1.10.16. If on 31.12.23, if the rate goes down to Rs.84, then rates will revert to their original position which is a 3% decrease from the current rate. If on 31.3.24, the rate goes down further to Rs. 75, which is a 6% decrease from the lower range threshold of Rs. 80, there will be a 3% decrease in prices.
